Diagnostic and Interventional Radiology is published bimonthly by the Turkish Society of Radiology. It is peer-reviewed and adheres to the highest ethical and editorial standards. The editors of the journal endorse the Editorial Policy Statements Approved by the Council of Science Editors Board of Directors (www.councilscienceeditors.org/services/draft_approved.cfm). The journal is in compliance with the Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals published by the International Committee of Medical Journal Editors (updated December 2014, www.icmje.org).

An electronic edition of Diagnostic and Interventional Radiology is available at www.dirjournal.org (ISSN 1305-3825 / EISSN 1305-3612).

First ten volumes of Diagnostic and Interventional Radiology have been published in Turkish under the name of Tanısal ve Girişimsel Radyoloji (Index Medicus® abbreviation: Tani Girişim Radyol), the current title's exact Turkish translation.

© All rights of the articles published in Diagnostic and Interventional Radiology and displayed online at www.dirjournal.org are reserved by the Turkish Society of Radiology.

Diagnostic and Interventional Radiology is indexed in SCI Expanded, PubMed/MEDLINE, TUBITAK ULAKBIM TR Index, DOAJ, HINARI, EMBASE, Scopus.

Instructions to Authors

Overview

Diagnostic and Interventional Radiology is a medium for disseminating scientific information based on research, clinical experience, and observations pertaining to diagnostic and interventional radiology. The journal is the double-blind peer-reviewed, international, bimonthly, open-access publication organ of the Turkish Society of Radiology. *Diagnostic and Interventional Radiology* is currently indexed by Science Citation Index Expanded (2013 IF: 1.427) and PubMed MEDLINE.

Editorial and publication processes of the journal are shaped in accordance with the guidelines of the international organizations such as the International Committee of Medical Journal Editors (ICMJE), the World Association of Medical Editors (WAME), the Council of Science Editors (CSE), the Committee on Publication Ethics (COPE), and the European Association of Science Editors (EASE).

Statements or opinions expressed in the manuscripts published in *Diagnostic and Interventional Radiology* reflect the views of the author(s) and not the opinions of the editors, the editorial board, or the publisher; the editors, the editorial board, and the publisher disclaim any responsibility or liability for such materials. The final responsibility in regard to the published content rests with the authors.

Submitting manuscripts

- Authors should submit manuscripts using the online peer review system that can be accessed through the DIR web site (www.dirjournal.org) or using the direct link at <https://mc04.manuscript-central.com/dir>.
- Detailed DIR Author Guidelines can be viewed or downloaded from DIR web site (www.dirjournal.org).
- *Diagnostic and Interventional Radiology* requires authors to submit an Authorship Contributions Form during the initial submission which is avail-

able for download through the journal's web page.

- Submitted manuscripts should be original contributions, and should not contain previously published data or must not be under consideration by another journal.
- Authors are required to make a full statement at the time of submission about all prior reports and submissions that might be considered duplicate or redundant publication, and mention any previously published abstracts for meeting presentations that contain partial or similar material in the cover letter.
- Authors must obtain written permission from the copyright owner to reproduce previously published figures, tables, or any other material in both print and electronic formats and present it during submission.

Copyright Transfer

Diagnostic and Interventional Radiology requires each submission to be accompanied by a Copyright Transfer Form. By signing the copyright agreement, the authors hand over the copyright of their work to Turkish Society of Radiology. In the case of a rejection decision, copyright of the manuscript will be returned to the authors.

Declaration of Conflict of Interest

Diagnostic and Interventional Radiology requires and encourages the authors and the individuals involved in the evaluation process to disclose any existing or potential conflicts of interests including financial, consultant, institutional, and other relationships that might lead to bias or a conflict of interest. Each contributing author is required to electronically fill in the *ICMJE Form for Disclosure of Potential Conflicts of Interest* (available at www.icmje.org) and the forms must be submitted during the initial submission.

Initial evaluation and Peer review process

Manuscripts submitted to *Diagnostic and Interventional Radiology* will first go through a technical

evaluation process where the editorial office staff will ensure that the manuscript is prepared and submitted in accordance with the journal's guidelines. Submissions that do not conform the journal's guidelines will be returned to the submitting author with technical correction requests.

All submissions are screened by a similarity detection software (iThenticate by CrossCheck), and those with an overall similarity index of greater than 20%, or duplication rate at or higher than 5% with a single source are returned back to authors without further evaluation along with the similarity report.

Manuscripts that conform the journal's guidelines will be reviewed by at least two external and independent peer reviewers during the evaluation process. Originality, high scientific quality, and citation potential of the manuscript are the most important criteria to be accepted for publication. The section editor and Editor in Chief are the final authority in the decision-making process for all submissions.

Permissions and Reprints

Turkish Society of Radiology handles all requests to reproduce material from *Diagnostic and Interventional Radiology*. For your convenience, please fill in the permission request form, available for download at the journal's webpage and e-mail a scanned version to info@dirjournal.org.

Please ensure that you include the full reference of the material you want to use (year of publication, volume and issue numbers, author, file of article, figure numbers where appropriate, etc.). Turkish Society of Radiology also requires a detailed overview of how you intend to use the material (i.e., in a book, etc.) and when.

The journal is printed on an acid-free paper.

ABDOMINAL IMAGING

- 201 **Original article.** Semi-automatic 3D-volumetry of liver metastases from neuroendocrine tumors to improve combination therapy with ¹⁷⁷Lu-DOTATOC and ⁹⁰Y-DOTATOC. *M. Cieciera, C. Kratochwil, J. Moltz, H-U. Kauczor, T. Holland-Letz, P. Choyke, W. Mier, U. Haberkorn, F. L. Giesel*
- 207 **Review.** Adult living donor liver imaging. *L. Cai, B. M. Yeh, A. C. Westphalen, J. P. Roberts, Z. J. Wang*
- 215 **Pictorial essay.** Magnetic resonance imaging of benign prostatic hyperplasia. *S. Guneyli, E. Ward, S. Thomas, A. N. Yousuf, I. Trilisky, Y. Peng, T. Antic, A. Oto*

BREAST RADIOLOGY

- 220 **Original article.** Effectiveness of single-session ultrasound-guided percutaneous ethanol sclerotherapy in simple breast cysts. *A. Özgen*

CHEST IMAGING

- 224 **Original article.** Percutaneous transthoracic localization of pulmonary nodules under C-arm cone-beam CT virtual navigation guidance. *T. H. Kim, C. M. Park, S. M. Lee, H. P. McAdams, Y. T. Kim, J. M. Goo*

EXPERIMENTAL STUDIES

- 231 **Original article.** Perfusion parameters as potential imaging biomarkers for the early prediction of radiotherapy response in a rat tumor model. *H. Y. Lee, N. Kim, J. M. Goo, E. K. Chie, H. J. Song*

FORENSIC RADIOLOGY

- 241 **Original article.** CT evaluation of medial clavicular epiphysis as a method of bone age determination in adolescents and young adults. *F. Ufuk, K. Agladioglu, N. Karabulut*

GENERAL RADIOLOGY

- 247 **Review.** Multimodality imaging in diagnosis and management of alveolar echinococcosis: an update. *M. Bulakçı, M. G. Kartal, S. Yılmaz, E. Yılmaz, R. Yılmaz, D. Şahin, M. Aşık, O. B. Erol*

INTERVENTIONAL RADIOLOGY

- 257 **Original article.** Initial clinical use of a novel mechanical thrombectomy device, XCOIL™, in hemodialysis graft and fistula de clot procedures. *W. L. Monsky, R. E. Latchaw*
- 263 **Original article.** Effectiveness of percutaneous vertebroplasty in patients with multiple myeloma having vertebral pain. *Ö. F. Nas, M. F. İneçikli, K. Hacıkurt, R. Büyükkaya, G. Özkaya, F. Özkalemkaş, R. Ali, C. Erdoğan, B. Hakyemez*
- 269 **Technical note.** Agitated saline sonography: a simple technique for intraprocedural feeder identification during transcatheter arterial chemoembolization of hepatocellular carcinoma. *B. P. K. Prasad, B. Ray*

MUSCULOSKELETAL IMAGING

- 273 **Original article.** Age and sex-based distribution of lumbar multifidus muscle atrophy and coexistence of disc hernia: an MRI study of 2028 patients. *E. E. Ekin, H. K. Yıldız, H. Mutlu*
- 277 **Original article.** Comparison of facet joint activity on ^{99m}Tc-MDP SPECT/CT with facet joint signal change on MRI with fat suppression. *V. T. Lehman, R. C. Murphy, L. A. Schenck, R. E. Carter, G. B. Johnson, A. L. Kotsenas, J. M. Morris, M. A. Nathan, J. T. Wald, T. P. Maus*

NEURORADIOLOGY

- 284 **Original article.** Bright and dark vessels on stroke imaging: different sides of the same coin? *A. Vural, R. Gocmen, K. K. Oguz, M. A. Topcuoglu, E. M. Arsava*
- 291 **Original article.** Influence of cigarette smoking on white matter in patients with clinically isolated syndrome as detected by diffusion tensor imaging. *G. Durhan, S. Diker, A. C. Has, J. Karakaya, A. T. Kurne, K. K. Oguz*

LETTERS TO THE EDITOR

- 297 **Biparametric MRI: a further improvement to PIRADS 2.0?** *M. Scialpi, G. Falcone, P. Scialpi, A. D'Andrea*
- 299 **Contrast-ing opinions: biparametric versus multiparametric prostate MRI.** *T. Barrett*
- 300 **Double-domed horizontal fissure.** *İ. M. Kabakuş, Z. Atçeken, O. M. Arıyürek*

Copyright Transfer Form

Conflict of Interest Acknowledgement Certification of Coauthors Exclusive Publication Statement

A signed and scanned version of this form should be submitted for each manuscript through the manuscript submission and evaluation system during the initial submission process. Your submission will not be processed unless the form is received by the editorial office.

This form can be downloaded at www.dirjournal.org

Complete copyright to the article entitled:

(hereinafter, "the article") is hereby transferred to the Turkish Society of Radiology (for United States government employees to the extent transferable), effective if and when the article is accepted for publication in Diagnostic and Interventional Radiology.

The copyright which the authors assign to the Turkish Society of Radiology encompasses all rights to exploit the article in any manner throughout the world. These rights include, but are not limited to, all print reproduction and publication rights and electronic publication rights, such as CD-ROM and online publication, as well as dissemination by any technology now known or later devised.

The author(s) retain all patent and other proprietary rights to the article, with exception of the copyright. If an author wishes to reproduce the article in any medium for distribution purposes, the author must obtain permission from the Turkish Society of Radiology and, if permission is granted, the author must credit the original source of publication when the article is reproduced.

The author(s) certify that:

1. The article does not infringe any personal or proprietary rights of others;
2. The editor-in-chief of Diagnostic and Interventional Radiology has been or will be informed of any proprietary or commercial interest or conflicts of interest the authors may have that relate directly or indirectly to the subject of this article;
3. The scientific content of radiologic images has not been altered, and that disclosure has been made regarding computer enhancement or other electronic manipulation of radiologic images;
4. The authors have made substantive and specific intellectual contributions to this article and assume full responsibility for its content;
5. This article has not been previously published and is not currently under consideration for publication elsewhere; and
6. This agreement has been signed by all of the authors who contributed to the article.
